Dear Premier Dalton McGuinty:

We, the undersigned, oppose the *Amendment to Regulation under the Fish and Wildlife Conservation Act, 1997 to Change Hunting Opportunities for the Kawartha Highlands Signature Site Park.*

We oppose an open sport hunting season in the Kawartha Highlands Provincial Park that would permit hunting of all wildlife considered 'game' or 'nuisance' in Ontario including, but not limited to, snapping turtles, raccoons, common grackle, foxes, squirrels, deer, moose, rabbit, cow birds, crows, wild turkeys, and bear.

We, the undersigned, are demanding:

- **That no sport hunting be permitted in the Kawartha Highlands Provincial Park or any protected areas;**
- **That these areas should be considered wildlife sanctuaries where wildlife can live and thrive in peace without the pressures of recreational hunting;**
- **That this proposal violates the very spirit of a protected area, and the intent of the Provincial Parks Act which identifies 'preserving ecological integrity' as its governing principle, and;**
- **That provincial parks and all protected areas are made safe for those individuals not engaged in the act of recreational hunting.**
